

Enhance Your Lending Decisions with Equifax Credit Attributes

Discover the power of customization in your decision-making process with Equifax Credit Attributes

Credit Attributes

Credit Attributes provide pre-calculated data points to enhance the credit assessment process.

Tailored & Custom Data Points

In partnership with Equifax, CRS offers a comprehensive suite of 2,800 credit attributes, designed to provide detailed insights into a borrower's financial profile.

 Mortgage Lenders

 Auto Loan Providers

 Credit Card Issuers

 Fintechs & Custom Decision Engines

Common Attributes

With over 2,800 attributes available, the potential use cases extend far beyond those mentioned above. CRS provides customized or predefined attribute packages to efficiently navigate the vast swath of data. Key and commonly used attributes include:

Age of the Oldest Mortgage Trade

Length of Credit History

Average Age of Open Trades

Total Number of Open Trades

Number of Inquiries in the Last 12 Months

... and many more!

1 All-In-One
Partner

 One-stop credit shop

Get access to all the data sources and services you need-across all bureaus and a growing number of data providers-from a single, trusted partner.

10x
Faster

 Eliminate the wait

Reduce bureau approval timelines from months to days. A single, streamlined vetting and compliance process with CRS is up to 10 times faster.

20+
Years
