

Military Lending Act (MLA)

Save time by requesting an MLA status check in the same request as an applicant's consumer credit report, or as a standalone request

Streamline the Process to Save Time and Resources

Add our MLA Covered Borrower Status to your current origination protocol for quicker insight to which credit terms you must offer an applicant.

It helps streamline your lending process and ensures you maintain "safe harbor" as stated by the Final Rule.

MLA is for business customers who need to:

- Verify a consumer's military status as part of the credit application process.
- Make prompt, informed decisions at the credit application stage.

MLA is commonly used in the following industries:

Banks, Credit Unions & Mortgage

Automotive

Pawnbrokers

Retail
