

## SmartPay: How It Works

Once we create a link to the following email is sent to client

<https://crs.meridianlink.com/FAKELINK smartpay/>

SmartPay link is a consumer direct ordering system allowing credit applicants to order their own credit reports from a website. Using SmartPay, consumers can submit their information, agree to any necessary disclosures, and have their credit report pulled for their creditor to review.

You will be notified once the report is pulled and have the consumer's contact information and the credit file number emailed directly to you.

Let me know if you want to send the consumer's score disclosure directly to the consumer when the report is ordered.

Once an order is placed via SmartPay, an email will be delivered to your email addresses. The email will be formatted as the following:

Subject: File # 157573 - Order Placed

Body:

File # 157573 has been created.

Consumer Info:

Applicant: BILL TESTCASE

Phone Number: 999-999-9999

Email Address: test@test.com

Current Address: 123 MAIN ST, ANTHILL, MO 65488

Previous Address: 220 LOCUST AVE, ANTHILL, MO 65488

Credit File: #157573
